## Differential Rebuild Service

If your Corvette's rear end "bangs," clunks or whines, Zip can return it to like-new condition. Cases are disassembled, inspected and cleaned and then rebuilt using all-new parts including bearings, races, seals, shims and a positraction clutch pack. Original ring and pinion is reinstalled and tested with professional set-up tools.

## Zip Differential Rebuild

Your Corvette's diff is key to getting the power to the pavement. Its complex nature suggests a rebuild is best left to professionals, as a correct set-up will ensure clunks, whines or "bangs" never rear their head. Zip's skilled technicians inspect, clean and magnaflux each core, then reassemble it using all-new parts including bearings, races, seals, shims and a positraction clutch pack. All work is performed in-house and is backed by our customer satisfaction guarantee.

Zip diffs pushed Leighton Reese's Banner Engineering Corvette through three seasons of the SPEED World Challenge GT Series, plus two seasons of Rolex GT including the Rolex 24 at Daytona. We're confident you won't find a better built differential!

## GM Gear Lube & Additive

GM's special formula gear lubricants work equally well in positraction and conventional rear ends both. Posi additive stops clutch "chatter" and clunking common to positraction clutch packs. Car requires 46oz of gear lube plus a single bottle of positraction additive.

## D44 Crush Sleeve

Factory D44 equipped C4 Corvettes used shims to set the pinion preload until the 1994 model year - that is when Dana changed to a crush sleeve design. If you're changing the gears in your Dana 44 differential, a new crush sleeve is required for a rebuild as all new ring & pinions are designed to use the crush sleeve.

## Steering

### Reproduction Steering Wheel

If your early C4's steering wheel is looking like it's seen too much use over too many miles, Zip has a new reproduction wheel that's a dead ringer for the original. Based on the '86-89 factory design, this quality reproduction includes leather wrapping, padding and stitching same as OEM. Upgrades '84-85 to the popular thick rim "fat" design of later ('86-89) Corvettes.

### Green Performance Air Filter

The simplest way to add 3-5 horsepower is to swap your stock air filter for a high-flow unit. Green Performance Air Filters use two layers of tightly-interwoven cotton fabric, specially designed rubber seals and deeper pleats to provide maximum airflow. Green Air Filters can be washed and reused over and over, which is why a lifetime guarantee comes with each one.

The cheapest horsepower available - simply swap your stock air filter for a high-flow aFe performance filter. Washable and reusable oiled cotton material traps dirt on the filter's outer surface to allow virtually unrestricted power-producing airflow into the engine.

## Vortex Rammer Cold Air System

For a serious power boost, replace your restrictive stock air box with a Vortex Rammer induction system. Pressurized air drawn from the radiator cavity is forced up through a specially designed scoop into the sealed Rammer box. There a revolutionary air cleaner injects cold air directly into the intake. Installation requires cutting stock radiator shroud. Black only.

## MAT Sensor Relocating Harness

Your C4's performance is directly affected by the ECM's ability to maintain proper air/fuel mix and timing advance. Power loss can occur due to false (hot) readings being sent to the ECM. Kit relocates sensor to air filter housing (requires drilling) where cooler surrounding air enhances performance.

## 85-89 Mass Air Flow Sensors

## New MAF Sensor

Micro-Tech Mass Air Flow sensors are constructed of high temperature components and circuitry designed to withstand hot, turbulent conditions. Smoother, less restricted heavy-duty construction flows 20% more air than stock, maximizing your overall air flow rating and enhancing performance. Adjustable MAF sensor allows for changes in air/fuel ratios.

## Remanufactured Bosch Fuel Injectors

Original injectors used in 1985-1996 Corvettes are known to short out easily, which causes all sorts of running issues. Zip now has access to newer technology from Bosch and GM. These Bosch III injectors which were introduced in the C5 Corvette have been modified so that they are a direct replacement for C4 Corvettes with a stock intake. Remanufactured injectors are dynamically flow matched to within +/- 2% of each other which exceeds the OEM standard. Remanufactured in the USA. Set of 8.

## Stainless Works

Custom exhaust fabrication at its finest. Stainless Works produces the systems most exhaust companies don't want to touch. US sourced aircraft quality 304 stainless is fully tig-welded and mandrel bent on CNC machines. Lifetime guarantee on materials and workmanship.

### L98 Long Tube Headers

L98 headers make excellent power adding up to 25 rear wheel HP. 304 stainless steel is known for its extremely high resistance to corrosion and excellent thermal resistance properties. Will require cutting and welding to connect to stock or aftermarket exhaust system. No discount.

### LT1/LT4 Headers & Exhaust System

More performance can be found from your LT1/LT4 Corvette with a set of long tube headers and/or SW's 2.5" exhaust system. Long tube headers feature 1 5/8" primaries, 3/8 CNC laser cut flanges and 2.5" collectors. Headers available with off-road pipe or high-flow converters. LT1/LT4 Corvette exhaust features a hi-flow x-pipe for improved exhaust scavenging, dual turbo (S-tube or chambered) mufflers and mirror polished wide oval exhaust tips. No discount.

### Exhaust/Header Wrap

Common knowledge says heat is the enemy of power. Composite wrap reduces underhood temps up to 50% - plus promotes increased exhaust flow. Sold in 2" x 50' roll. Tan withstands 1200°F direct and 2000°F intermittent heat, titanium 1800/2500°F respectively. Hi-Temp silicone spray coating penetrates to seal, protect and prolong the life of tan wrap. Spray is not recommended for titanium wrap. 304 stainless steel ties secure wrap to pipes/collectors for a clean finished look. Check out the tie wrap tool to make this job even easier.

## Cooling & Heater System

### Direct Fit Aluminum Radiators

Like the name says, our radiators are designed to bolt right in – no ifs, ands or buts. Every Direct Fit radiator is made in the USA and begins life as a double-row core furnace brazed for strength and accuracy. Press formed end tanks are meticulously TIG welded by real craftsmen to ensure leak-free performance and knockout looks. Have a work of art under your hood.

### Direct Fit Aluminum Radiator

Original C4 Corvettes introduced the aluminum radiator with plastic tanks – not a bad radiator, but not designed to last the lifetime of your Corvette. Plus, as soon as modifications come into play, cooling needs to be addressed. Direct Fit radiators increase cooling capacity 100% over OE unit while eliminating failures due to cracked end tanks and/or gasket leaks. 100% full aluminum epoxy-free radiator features (2) 1" rows, press formed tanks and an optional built-in oil cooler. 84-89 radiator includes mount cushions.

### Single Row Aluminum Radiator

100% full aluminum epoxy-free radiator eliminates failure due to original plastic tanks or leaky gaskets. One 1.5" row increases cooling capacity by over 50% over factory radiator. Includes press formed end tanks and transmission connections. US Made. 84-89 radiator includes mount cushions.

## Low-Temp Fan Switch

Works with single- or dual-fan applications to turn fan(s) on at 200° and off at 185° for better performance. Corvettes with dual fans have a fan mounted on both sides of the radiator. In those instances, replace factory fan switch with the low-temp fan switch. Fan is computer controlled; together the switch and harness replace the sender to turn fan on and off at the new temperatures.) If you've installed a ThermoMaster chip in a single-fan Corvette, you need only the conversion harness.

## Headlight & Lights

### New Headlight Motor

Restore your Corvette's headlight operation with Zip's new headlight motors. Perfect for customers with damaged or broken headlight motor cores. No core charge. Specify LH or RH when ordering.

M-2837	88-90	Headlight motor (LH or RH).....	249.99
HDL-354	91-96	Headlight motor (LH or RH).....	249.99

### Rebuilt Headlight Motors

An alternative to the cost of a new GM unit is a rebuilt headlight motor. Rebuild includes new drive gears and a complete electrical overhaul. Sold on exchange; \$150.00 core charge required if rebuildable motor does not accompany order. Motors with cracked cases are not rebuildable. Additional charge will be incurred for cut-off harness pigtails.

M-3880	91-96	Rebuilt headlight motor (LH or RH).....	149.99

1988-1996 headlight motors were 2 wire designs made of metal. 1988-1990 motors included pigtail harness with its own plastic connection plug and round pins. 1991-1996 headlight motors include a pigtail without the plastic plug housing. Flat harness pins are inserted into existing headlight motor plug.

### 84-87 Headlight Motor Repair

Don't pay the cost of a complete OEM replacement motor if the problem is simply free-spinning or slipping gears. Improved material headlight gears will eliminate the missing gear teeth often found in 84-87 headlight motors.

### Bronze Headlight Motor

Nylon headlight gears commonly fail due to their brittle composition. Replacement gears made of improved materials are available, or, for a more durable fix, install bronze gears instead. '84-87 motors use a large and small gear; when replacing gears with bronze, both size gears should be replaced.

### 88-96 Headlight Motor Linkage

Over time the plastic bushings in headlight motors become brittle and deteriorate, causing additional stress on the headlight system and gears in particular. Car set of 8 plastic bushings will restore your Corvette's headlight motor to working condition.

### Harness Repair

Headlight motor pigtails are often cut to aid in the removal of the headlight motor. Unfortunately, this could cause short circuit in your headlight motor over time. New electrical pigtails are available to return your headlight motor to its original condition. Includes correct harness plug.

### Programmable ECM

New programmable ECM designed for early model C4 Corvettes. Allows for flash programming - giving you the control needed to properly program your Corvette based on your own personal needs. Includes software and instructions. Note: Changes 1986-1989 Corvette into a Speed Density operation and permanently eliminates the MAF sensor. No discount.

PM-816 85-89 Programmable ECM ..... 549.99

### Body Control Module

1990-1996 body control module is often referred to as the BCM or CCM which controls everything within the body functions of the C4 Corvette. The CCM is also integrated with the security (VATS) system and when it fails, your Corvette will turn over and start, but it will only run for a few seconds before cutting off. Zip Corvette is now able to rebuild your 1990-1996 Corvette's CCM. Please allow a 2 week turnaround for the rebuilds. No discount.

## Hypertech Power Chips

If you're looking for more horsepower and better performance, look no further than Hypertech. Plug-in power chips recalibrate fuel delivery and ignition timing to deliver improved horsepower, torque, acceleration and top-end speed – without affecting around-town fuel efficiency. Automatic cars also benefit from improved shifting and torque converter lock-up. Street Runner chip offers power tuning for stock or mildly modified Corvettes (cat-back exhaust and high-flow air filter). 50-states legal and warranty friendly. Specify year, transmission and California use.

## EPROM Calibration Service

The 27C256 Chip or EPROM in your memcal does not have an indefinite life. The data or calibration will begin to deteriorate after 15-20 years, causing many running issues in your Corvette. Zip can fully erase your original EPROM and reprogram it with the factory calibration. If needed, we can also eliminate the VATS system or change cooling fan temperatures.

## 88-96 Sill Carpet

Corvette sill carpet eliminated the “foot drag” scratches found on early C4 Corvettes. However, over time, this carpet area becomes well-worn due to high traffic. Available in both cut-pile for 88-93 Corvettes or TruVette for 94-96 models. Replacement carpet only will mount over your Corvette’s factory plastic panels. Sold in pairs.

## POLICIES & SHIPPING - Zip Products

We're proud that orders placed by 3:00 p.m. EST ship that same day on in-stock items! Packages ship UPS Ground or USPO unless otherwise requested or unavailable due to location or size and weight of parts. Expected delivery is 1-6 business days within the continental USA. Please provide complete street address to ensure delivery. Saturdays, Sundays and holidays are not included in UPS delivery times.

**SHIPPING CHARGES** - Shipping charges are most precisely calculated by shipment type, order weight and destination. Customers will be notified of shipping charges prior to order shipment. Please call or go online for shipping charge quotes if desired.

**UPS AIR SERVICES**- UPS provides all guaranteed Air services for Zip Products unless specified by the customer. Available services include Next Day Air, 2nd Day Air, and 3 Day Select. All charges are based on weight or dimensional weight (whichever is greater) and shipment destination. Saturday service is available on Next Day Air shipments only.

**TRUCK SERVICES**- Some parts in our catalog are too large to be shipped by UPS. These parts are noted in the catalog as "truck". Truck shipments are required to be prepaid for the total parts cost plus freight charges by check, money order or credit card. The customer is responsible for being at provided shipping address to accept parts.

**OTHER SHIPPING SERVICES**- Zip Products also uses the services of FedEx and the U.S. Postal Service. Orders must be paid by credit card, Pay Pal or prepaid check. All FedEx continental USA services are available. Packages sent through the Post Office are sent First Class or Priority Mail.

**ZIP INTERNATIONAL**- From single parts to everything needed for a complete restoration, Zip ships Corvette parts the world over. International orders are processed within 24 hours of receipt and delivered via UPS, Postal Service or your own freight forwarder. Please specify shipping method preferred. If not specified, orders will be shipped by the best method as determined by Zip Products. Charges are based on actual weight or dimensional weight according to the size of the entire shipment, whichever is greater. Payment is accepted by credit card, Pay Pal or bank draft. Shipping charges do not include any customs or duty fees and may not include brokerage fees. Quotes will be provided for total cost of order, if required due to payment method.

- **Canada:** Orders must include full address with city and province. All orders are shipped UPS Ground or Air unless otherwise specified or UPS is unable to deliver to your location. To better serve our customers, Zip is recognized as a non-resident importer, a status that allows us to collect all duties, taxes and brokerage fees at the time your order is processed. This arrangement means you know the exact cost to have parts delivered to your door – no hidden costs for your shipments!
- **PUERTO RICO, HAWAII & ALASKA:** All Puerto Rico and Hawaii orders can be sent UPS Ground, Next Day Air, 2nd Day Air, or through the Post Office. Please specify shipping method preferred.
- **A.P.O., F.P.O.:** All orders going to these addresses must be sent by the Post Office.
- **VIRGIN ISLANDS, GUAM:** All orders going to these locations can be shipped via UPS Express or the Post Office. Please specify shipping method preferred.

**MAIL-IN ORDERS**- Customers placing orders by mail and paying by personal check, money order or certified funds can go online or call for shipping charge quote. Shipping charges are most precisely calculated by order weight and destination. Download order forms at [www.zip-corvette.com](http://www.zip-corvette.com).

**LIABILITY DISCLAIMER**- Zip Products is not responsible for any damage, injury, loss or any other charges, caused by delays or incurred in the replacement of any defective items. Zip's liability is limited to the replacement and the shipping cost of defective items only. Improper installation, damage or injury resulting from the use of items sold by Zip Products are the purchaser's responsibility. Due to changes in the Corvette industry, part numbers, specifications, prices and availability of parts can change. Consequently, there may be times when parts are discontinued or prices increased. Changes may also occasionally occur in our policies and terms. Call Zip during regular business hours for up-to-date information.

**"NO HASSLE" GUARANTEE**- Since 1977, Zip Products has supplied parts and accessories to Corvette enthusiasts the world over. Then as now, packed into every shipment is our unparalleled commitment to customer service. Here at Zip, we believe a happy customer is a repeat customer. If you're not completely satisfied with any product for any reason, we'll promptly refund or exchange any purchase within 30 days.

**LOW PRICE GUARANTEE**- Zip works hard to make certain our prices are competitive. That said, it's possible you may find "cheaper" merchandise elsewhere. If it is the same brand part or accessory offered for a lower price by another supplier, we'll match their published price. Price must appear in a current magazine advertisement, Web site or catalog to qualify. Don't sacrifice quality and customer service for the sake of a few dollars – call Zip!

**RETAIL DISCOUNTS**- Retail customers receive a 10% discount on each minimum purchase of \$850 on any combination of parts and/or accessories, excluding (ND) items. Zip's Restoration Club is designed for those involved in long term projects. With an initial purchase of \$2,000, you'll receive a 10% discount off the order, PLUS an additional 10% off every order you place for the next year. Call or visit online for more information.

**WHOLESALE ACCOUNTS**- Zip provides Corvette parts to more than 3000 wholesale accounts around the globe. Multi-line discount programs are designed for the installer or reseller. Contact a salesperson for specific details. Proof of business required.

**"NO DISCOUNT"** - An (ND) designation beside a part, group of parts or price indicates that "No Discount" is available on that part or group of parts.

**BACKORDERS**- Over 96% of orders ship complete; however, backorders do occasionally occur. Most ship within 10 business days. For longer delays, our policy is to ship orders up to 30 days old. Past 30 days we'll call for authorization first. If you wish to cancel a backorder, please notify Zip as soon as possible.

**ITEM SHORTAGES**- Inspect merchandise immediately upon receipt of order. Notify Zip of any shortages or discrepancies in your order within seven (7) days from shipment date. No claims allowed after seven (7) days.

**DAMAGED PARTS**- All parts shipped are insured for the amount of purchase. Should your order arrive damaged or missing merchandise, immediately notify the carrier (UPS, truck freight company, etc.) and Zip. Keep all shipping materials (box, packing, etc.) intact until an inspection can be made by the carrier.

**CORE REFUNDS**- Customers who have purchased a product sold on an exchange basis and had a core deposit applied must return the required rebuildable core within 30 days from the date of shipment. A copy of the original invoice must accompany the return. Failure to return cores within 30 days may result in a reduction or loss of the core deposit. Return freight for cores is the responsibility of the customer.

**RETURNS & EXCHANGES**- Zip includes a return form on the back of each invoice for your convenience. If you have questions or concerns regarding a return or exchange, call to speak to your Zip sales representative. Returns are eligible for one (1) year without a restocking fee. Return shipping is the responsibility of the customer. C.O.D. return packages are not accepted. The customer is responsible for returning parts in the same condition they were received, with proper packaging and insurance to cover the value of parts being returned. Canadian and international customers, call for authorization to return parts.

**SALES TAX**- Zip is required by state law to collect and remit sales tax on purchases made and shipped to a variety of states. These requirements are based on the specific regulation of the state. Tax is based on delivery destination and may include freight charges. More information about sales tax collection can be found at: <https://www.zip-corvette.com/tax.html>

**IN-STORE SHOPPING**- Zip has thousands of parts and accessories available for immediate pick-up at our showroom counter. Call before you come and we'll have your order waiting. Showroom hours are 8:30 a.m. to 5:30 p.m. EST Monday-Friday and 10 to 3 Saturdays. When traveling in the Richmond, Virginia area, visit Zip Products in Mechanicsville. We're just east of downtown Richmond, and only a quick drive off interstates I-64, I-95 or I-295.
